

iAWBS Automated Weight & Balance System

Wireless Communication Link for Scales to iAWBS App

iPad[®] sold separately

Intercomp Scales Communicate with iAWBS App using Intercomp's RFX-WiFi Converter

In conjunction with Lockheed Martin, Intercomp provides an industry first wireless interface between its scales and the iAWBS application for iPad[®]. It allows the user to capture weights directly from Intercomp scales into the AWBS Form B Worksheet. This allows complete integration from the aircraft weighing back to AWBS on the desktop and subsequently to the AWBS Centralized Server. The user can complete Form B during the weighing process without having to manually transcribe weight readings from the scale. This direct interface reduces manual errors and further automates the weighing process. The Intercomp RFX-WiFi converter integrates Intercomp scales and Lockheed Martin's iAWBS software into one complete system for fast, accurate and reliable weighing of military aircraft.

The converter is compact, and easy to set up. Simply power on the device and then enable WiFi on your iPad[®]. Select the unique network name of the converter to create direct communication with your Intercomp scales. The converter creates a safe, license free ISM band network, which is encrypted for secure communication in the hangar.

iAWBS

Fully Integrated RFX™ Wireless Weighing Technology

- Link Weights from Scale Directly to Form B
- Location Information for Altitude & Latitude Corrections
- Chart C Basic Weight & Balance Record View
- Updated Layout of the Capture Weights View
- Improved Performance for Importing Records

Expand your data gathering and processing capabilities by using built-in wireless communication

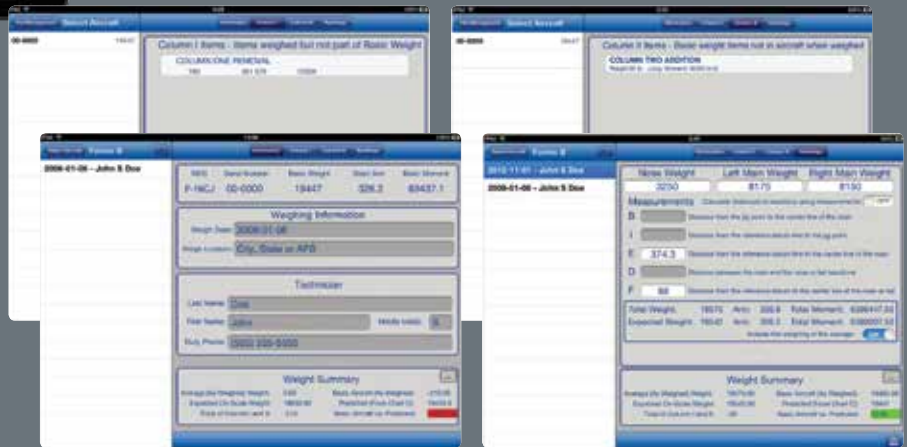

RFX-WiFi Converter by Intercomp for iAWBS by Lockheed Martin

Simplify Aircraft Weighing & Data Collection

- Communicate & Control Scales with RFX-WiFi Converter (Sold Separately)
- Converter Provides Direct Communication with Lockheed Martin iAWBS
- Calculate C.G., Save, Review, Export & Email Weighing Records
- Converter Powered from Direct 110/220 or Charged to Provide up to Fifteen Hours of Continuous Use
- LEDs Indicate On/Off, Charge, Power & Low Battery
- Converter Sold Separately, or Bundled with the Converter, iPad® & Cover

iAWBS App Communicates with RFX™ Enabled Scales & RFX-WiFi Converter

Jack Weigh Kits

Platform Scales

*Non-Wireless scales can be upgraded to RFX™ Wireless. Contact Intercomp for upgrade information. iAWBS application is a product of Lockheed Martin.
