## **FOR IMMEDIATE RELEASE**

### **Intercomp Leads The Way At Speed Weeks 2013!**

Minneapolis, MN - The racing action was once again fast and fierce during Speed Weeks 2013 in Daytona Beach, FL. Six different teams found their way to victory lane at the World's Most Famous Speedway and did so while using Intercomp as the preferred scale and chassis set up equipment. Intercomp's industry leading, track tested, RFX™ Wireless Weighing Technology is the most advanced wireless weighing technology of its kind & has been used by champions in all forms of motorsports.

Thirty-Seven teams, competing in the 2013 Daytona 500, use Intercomp Scales. In addition, all four of the major touring series that competed on the 2.5 mile super speedway, use Intercomp Scales for technical inspections.

"Professional teams and officials alike look to Intercomp RFX™ Wireless Scales for their dependable and trouble free weighing of the world's most competitive race cars and Intercomp's PercentWeigh™ Technology, which displays set ups to one hundredth of a percent, providing unbeatable accuracy" said Intercomp Racing Representative Mike Tetzlaff
