FOR IMMEDIATE RELEASE

Intercomp's Inventory Management Systems Monitor Silo Levels

Minneapolis, MN - Intercomp's Inventory Management Systems monitor and manage concrete inventories and sends alerts when silos are in need of refilling or warns of possible overflows. Using strain gage load cells, Intercomp weighs the actual tank, monitoring on-hand product amounts, preventing down times, cleanup costs and eliminating errors due to pockets or bridging.

Remote monitoring adds the convenience of monitoring multiple silos from one location and allows tracking of inventories of multiple silos simultaneously. This information is viewable using any device with web browsing capability, including a laptop, tablet or phone. Custom connections are set up for each customer allowing for monitoring at the most remote locations.

For further information, contact Intercomp's Sales Department at 800-328-3336 or Worldwide +1 763-476-2531, Fax 763-476-2613 or write Intercomp, 3839 County Road 116, Medina, MN 55340-9342. Contact us by E-mail at info@intercompcompany.com or visit us on the web at www.intercompcompany.com.
