FOR IMMEDIATE RELEASE

Intercomp's AS Series™ of Alignment Systems Maximize Profits and Shop Space

Minneapolis – In the automotive maintenance business, shop floor space equals money. That is where the Intercomp's AS Series™ Alignment Systems can help maximize profits for any shop.

The AS Series™ Alignment System eliminates the need for expensive, bulky, and space-robbing alignment racks while producing the same results as other industry-leading systems. The product can be used in conjunction with a standard two-post lift, or any other type of lift that allows access to the vehicle's wheels. Aside from being able to decrease downtime by bringing the alignment equipment to the vehicle being serviced, the chance of a workplace injury decreases greatly with less vehicle movement on the shop floor.

Each system includes digital caster/camber gauges with integrated lasers and targets, four rim clamps and a tape measure. The system can be purchased with, or without, mechanical turn plates and turn plate spacers. A branded locking storage cabinet and set of wheel stand/levelers are also available for purchase to complete the alignment system. We also back each system with a one-year warranty and have the ability to assist with technical questions that may arise.

Regardless of the current size of your business, or the clients you serve, Intercomp's AS Series™ Alignment Systems can help grow your bottom line.

For product or sales inquiries, contact Intercomp's Sales Department toll free at 800-328-3336 or Worldwide +1 763-476-2531, Fax +1 763-476-2613 or write Intercomp, 3839 County Road 116, Medina, MN 55340-9342.
