FOR IMMEDIATE RELEASE

Avianca Airlines selects Intercomp for their weighing equipment!

Minneapolis, MN – Intercomp's industry leading aircraft scale portfolio continued to grow when yet another airline selected an Intercomp weighing system. The second largest airline in Latin America, Avianca, understands the importance of reliability, repeatability and accuracy in their aircraft scales, which is why they upgraded to Intercomp's AC30-60 platform scale system.

Avianca chose Intercomp scales because of their superior electronic, shear beam load cell technology to achieve better repeatability and remain in tolerance after calibration. They also leverage the benefits of RFX™ Wireless Communication to more efficiently gather and process data in real time from a central read out.

Intercomp is the largest manufacturer of aircraft weighing solutions, and has been serving the industry for over 35 years. Intercomp manufactures RFX™ Wireless Platform Scales and Jack Weigh Kits to weigh and classify anything from general aviation aircraft to the A380.

For more information, contact Intercomp's Sales Department at 800-328-3336 or Worldwide +1 763-476-2531, Fax +1 763-476-2613 or write Intercomp, 3839 County Road 116, Medina, MN55340-9342 USA. Contact us by E-mail at acscale@intercompcompany.com or visit us on the web at www.intercompcompany.com.
