Ultra-Low Deflection Scale Pads

The Axle Weighing Specialist

Accurately Detect & Display Consistent Data by Decreasing the Effects of Deflection

These scales offer our highest level of accuracy, repeatability and stability for consistent weighing results. Available with system capacities of up to 16,000 lb (7,300 kg). Built-in RFX® technology increases the usability of the system as data is available simultaneously on the included RFX® wireless handheld display, or on a PC with included RaceWeigh™ software, allowing engineers and mechanics live access to the same data.
