

# Utility Weighing Systems

Portable Solutions for Utility Vehicle  
Weight Compliance & Line Tension

## ***A Comprehensive Range of Products to Fit Any Weighing Application***

Intercomp's complete line of wireless and cabled wheel load, axle, crane, platform and tension link scales will meet any weighing need for a public or private utility provider. No other manufacturer offers a wider selection of weighing products that combine

the industry's most sought after features while enabling the user to transmit, save and export weight data for a variety of uses.

Intercomp's RFX™ Wireless Weighing systems allow utility companies to ensure vehicle safety following modification or service and weight compliance when leaving a facility or remote jobsite. Non-vehicle-specific weighing systems also allow for easy measurement of line tension and the volume of gas cylinders, in addition to other weighing applications.

## Utility Weighing Solutions

### Wheel & Axle Load Scales

Precise Weighing for Any Type of Fleet Vehicle; Available in Capacities up to 40,000 lb (20,000 kg) per Dual-Wheel Pad

**PT300™**  
Wheel Load Scales

**LP600™**  
Low-Profile  
Wheel Load Scales

**AX900™**  
Axle Load Scales

**LS630-WIM™**  
Portable Low Speed  
Weigh-In-Motion Scales

Intercomp portable RFX™ Wireless wheel and axle scale systems provide the perfect solution for ensuring the **Weight Compliance** of any vehicle. High-volume vehicle weighing is best suited to Intercomp's Weigh-In-Motion technology or axle scales utilized in an above- or in-ground configuration.

**NTEP-Certified Part Numbers Available for Most Models of Intercomp Wheel & Axle, Hanging and Platform Scale Systems**

### Line Tension & Overhead Scales

Weighing Solution for Confined Spaces  
Capacities up to 100,000 lb (45,000 kg)

**TL8000™**  
Tension Link

**Line Tension** is easily measured with Tension Links that feature rugged construction with a built-in display. Optional features include a remote indicator and audible alarm.

### Platform Scales

Ideal for Measuring Cylinder Weights  
Capacities up to 2,000 lb (900 kg)

**CW250™**  
Platform Scale

**Pressurized Gas Volume** can be determined using a platform scale. NTEP Certification of 0.1% accuracy allows these scales to serve quality control and pricing roles.

### Compatible with these Intercomp Devices

**HH60™ Handheld RFX™ Indicator**  
Easily process weight-related data for monitoring loads of up to six scales in a compact, handheld device

**HH400™ Handheld RFX™ Indicator**  
Continuously monitor up to four scales simultaneously in a user-friendly package

**IntercompWeigh™ Software**  
Manage any weighing process, view scale data, customize layouts and generate reports  
*PC Not Included*
