

Simplified SOLAS Solutions for Shippers

SOLAS Regulations Go Into Effect Soon, Are You Ready?

SOLAS Verified Gross Mass (VGM) Requirements

With two options available to obtain the VGM for cargo, Intercomp offers equipment for either method:

Method 1:

Weighing the packed container.

Method 2:

Weigh each package/item being loaded into the container and add the tare weight of the container.

Intercomp[®]
advanced weighing technology . . . by any measure

Solutions for SOLAS

Proven Options to Collect VGM via Method 1 & Method 2

With SOLAS regulations requiring a verified container weight coming into effect July 1, 2016, shippers should be ready to comply with these regulations in June 2016. In order to comply, precision weighing solutions will be required to provide a verified gross mass in one of the following ways:

Method 1: Weigh the container completely packed.

LS-WIM Axle Scales

- High Accuracy, Weigh-in-Motion Scale
- Capacity of 25 tons Per Axle
- Compact, Easy-to-Install
- Ideal for Any In/Out Gate Operation
- Subtract Vehicle Curb Weight for VGM

CS3000™ Crane Scales

- Ideal When Lifting the Entire Container
- Available in Capacities to 100,000lb (50,000kg)
- Accuracy of $\pm 1\%$ of Reading
- Wireless Signal up to 300' (90m) Line of Sight

PT300™ Portable Scales

- Available in a Variety of Capacities
- Accuracy of $\pm 1\%$ of Reading
- Rugged, Lightweight Aluminum Construction
- Highly Portable
- View Total Weight from Any Scale
- Ideal for Containers & Wheel Load Applications

TL™ Series Tension Links

- Ideal When Lifting the Entire Container with Spreader Bars/Multiple Pick Points
- Available in a Variety of Capacities
- Highly Accurate
- Wireless Signal up to 300' (90m) Line of Sight
- Compact, Easily Portable

Method 2: Weigh each package/item being loaded into the container and add the tare weight of the container.

PW800™ Pallet Truck Scales

- 5,000lb (2,500kg) Capacity
- Accuracy of $\pm 0.1\%$ of Reading
- High Quality, American-Made Construction
- Large, Easy-to-Read LED Display
- Standard D-Cell Batteries Last up to 400 Hours

SW™ Series Portable Scales

- Can be Arranged to Create Any Size Floor Scale
- Up to 20,000lb (10,000kg) Capacity
- Accuracy of $\pm 0.1\%$ of Reading
- Wireless Indicator Included
- Compact, Easy-to-Store When Not in Use
