FOR IMMEDIATE RELEASE

Multiple Scale Systems Sold in Resurgence of Air Travel and Cargo

Minneapolis, MN –The past several months marked a flurry of activity for aircraft scale orders at Intercomp Company, indicating of the importance of airfreight and an increase in air travel. Weight and balance equipment remains vital in necessary maintenance of aircraft, and facilitates the return of passenger and freight aircraft back into service to meet the increasing needs of the industry.

Customers, including airframe manufacturers, airlines, and MROs around the world, placed orders for Intercomp aircraft scales systems for their respective needs. These placements include AC40-LP™ Low Profile Scales, AC30-60™ High Capacity Scales, and a number of AC60-LP™ Low Profile High Capacity Systems.

“The increased demand for aircraft scales stems from a combination of market factors and increasing customer capabilities,” states Jon Arnold, Transportation Market Manager, “and Intercomp’s portfolio of [intrinsically safe platform scales](#) fulfills weighing needs ranging from narrowbody, widebody, and freight conversions.”

These scale systems are going into service in the United States, Latin America, Europe, and the Far East for airlines, MRO’s, and airframe manufacturers. The global surge of activity across companies spanning the aviation industry is an indicator of the importance of air travel and commerce moving into 2022.

For further information, contact Intercomp’s Sales Department at 800-328-3336 or worldwide 763-476-2531, fax 763-476-2613 or write Intercomp, 3839 County Road 116, Medina, MN 55340-9342.
