FOR IMMEDIATE RELEASE

Intercomp EXPERT WEIGH™ Tablet Scales with XBT™ Wireless Technology

Minneapolis, Minnesota - Intercomp Racing, the leader in precision measurement solutions and wireless scale systems for all forms of motorsports, proudly introduces our latest Billet Wireless Scale System. Intercomp's SW700™ Expert Weigh™ with XBT™ Bluetooth® Wireless Weighing Technology is Made in the USA and communicates directly to our iRaceWeigh® Mobile App using a tablet or phone/device to quickly record corner weights, percentages and scale setup data at the track or in the shop.

Expert Weigh™ XBT™ Scales communicate to a device rather than a traditional wireless indicator and are available for sale with an included Android™ tablet with a hardened case or as a set of 4 Billet Aluminum 6061-T6 Scale Pads for use with your own Android™, iPhone® or iPad® Device. The flexibility of this system allows the collection of weight data on your own tablet or phone or the tablet included with the system. In addition to communicating with a mobile device, the XBT™ Scales can also communicate via Bluetooth® with a PC to Intercomp's Raceweigh® PC Software, and up to four devices at the same time.

Intercomp's new XBT™ Wireless Scale Systems have streamlined vehicle weighing with an easy-to-use solution that delivers the greatest level of accuracy with your choice of device. With no cables to manage, long battery life and superior performance features, Intercomp is the industry leader in wireless weighing and our field-proven wireless scale technology has proven this for over 20 years!

Just as with Intercomp's Championship Winning RFX® Wireless scale systems, the 6061-T6 Billet Aluminum Scale Pads offer low deflection, certified calibration to 0.1%, and a standard 2-year warranty. The systems include four 1,500 lb (700 kg) billet scale pads with a 2.5" profile, are powered by 2 standard AA batteries with a system capacity of 6,000 lb (2,800 kg). They read in LBS and KG for enhanced usability with encrypted XBT™ Wireless Weighing Technology to transmit data from the pads to the included tablet or your device. To learn more about these cutting-edge scale systems, visit intercompracing.com.
