FOR IMMEDIATE RELEASE

Intercomp's CS750™ Hanging Scale Selected as Readers' Choice

Minneapolis – Intercomp's CS750™ Hanging Scale captured the 2020 *Material Handling Product News* (MHPN)/Material Handling 247 Reader's Choice award. Intercomp's CS750™ was chosen as the best product in the Overhead Handling category, and featured alongside 11 other category-winning products in the publication's December issue.

The CS750™ Hanging Scale is useful in a variety of applications, with capacity up to 1,000 lb (500 kg) and accuracy within $\pm 0.1\%$ of the applied load. This medium-duty scale, with a backlit LCD display, can be found in many types of businesses, including distribution centers for bulk construction materials, light manufacturing facilities, and low-light or low-visibility environments. NTEP-certified variants are also available for purchase where legal-for-trade scales are required.

This scale uniquely balances cost and versatility, providing many features found in more expensive units at an affordable price point. With up to 800 hours of service using readily-available D-cell alkaline batteries, the CS750™ minimizes inefficient downtime needed to replace batteries. RFX® Wireless connectivity can be added when ordering, providing remote access to scale functions and weight data, using any Intercomp RFX® Wireless Indicator.

For further information, please contact Intercomp Industrial Sales at 800-328-3336, worldwide +1 763-476-2531, fax +1 763-476-2613 or write Intercomp, 3839 County Road 116, Medina, MN 55340-9342 USA.
